

VIPER™ LT ROPE GRAB

The Viper™ LT Manual Rope Grab is a restraint and fall arrest device which can be used in a variety of Vertical and Horizontal applications. With its extremely simple opening system, a user can move effortlessly and safely along a Ø 12,5mm rope to perform their daily tasks.

Features and Benefits

- A lightweight fall restraint and fall arrest device with automatic locking function for added security.
- Can be used with Ø12.5mm Kernmantel rope which is stronger and more durable when compared with traditional three strand ropes, increasing the rope's working life.
- Made from powder coated aluminium for improved corrosion resistance.
- Removable cam pin, enabling different lengths of rope to be used.
- System breaking strength > 15kN.
- Conforms to the EN 353-2 & EN 358 standard and is CE Marked.

AC4000
